MILANO DAL 1919

**BUCCELLATI**

MILANO DAL 1919

The new Opera cuff watch breaks the rules and imposes a striking elegance, made of contemporary lines and masterly engravings.

The inspiration is based on the concept of the Buccellati symbol, thus rightfully becoming part of the wider "Opera" collection by Buccellati, where the logo element is both star and director.

The four-arch iconic design is re-interpreted to fit the wrist of a daring woman and destined to become a "timeless" classic. The bezels are offered in five declinations, ranging from the one with "graffito" engraving and logo on the dial, to the one entirely encrusted with diamonds which has a "rigato" engraved dial. The great and appreciable surprise is the bracelet, recalling the shape

and design of the cuff bracelets  
Buccellati is world famous  
for. For the Opera watch, the  
bracelet is covered with crocodile  
leather, available in a wide and rich  
selection of innovative colors.

The movement is Swiss Quartz.

The latest Buccellati style is  
made for perfect wearability and  
unquestionable refinement.

The Buccellati Opera cuff watch  
makes time evolve in places and events,  
in shapes, movements and colors.

It is the certainty that there are  
beautiful timepieces which are  
indifferent to the unavoidable action  
of time itself. This is one of the  
greatest gifts of goldsmithing art: the  
sensation that not everything is lost,  
and that some things remain perfect  
and inviolable in time.
